PRESIDENT

D. Luis-Manuel Tomas Balibrea
President
Federación de Asociaciones de
Ingenieros Industriales de España
General Arrando 38
ES-28010 Madrid, Spain

Dear Mr. Tomas Balibrea

Re: Recognition of former engineering degrees vs. engineering Bologna degrees

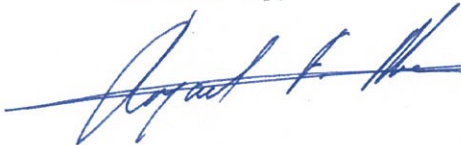

On behalf of FEANI, I acknowledge receipt of the information about your request made to the Spanish government about the recognition, homologation and accreditation of the former professional qualifications of engineers prior to the Bologna reform with the current Bologna degrees (Bachelor, Master, PhD).

As the European Federation representing professional engineers through its member associations in 32 countries, FEANI endorses and supports this request.

Full approval of these qualifications is of utmost importance for the mobility and competitiveness of Spanish engineers in an international market.

FEANI urges the Spanish government to adapt, as quickly as possible, the Spanish situation to the reality of other EU countries.

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'Luis-Manuel Tomas Balibrea', is written over a horizontal line.

President FEANI
